

Award Winning Book

1. Tell what award your book received. Explain how/why books are given that specific award. (Note: this may require some research on your part.) **In your opinion**, why do you think your book received this specific award?
2. Pretend that your profession is to review books and you have been asked to submit a review for this book. Your quote will be used on the back cover of the book. Your quote cannot be longer than 75 words. What would you write?
3. What group or audience would most enjoy this book and why? Be specific about gender, age range, and interests.

Example: This book is most suitable for girls that love horses. It is most appropriate for kids around 10 years old or in grades 4-6. I think a girl would enjoy the book more due to the friendship between the main characters. The book is set in Kentucky and most of the conflicts revolve around horse competitions.

Remember that all book reactions should include a label, book title, author, date, and your name. Your work should be edited for quality of writing and spelling should be correct.
